University of Kent Resources

The University of Kent recognises that its student community is formed of individuals from all stages of life and welcomes and supports all students.

One of the ways we do so is to provide additional space for specific demographics of students. The MPOC Common Room is appropriately available to Mature, Part-Time, Commuting and Students with Caregiving Responsibilities to provide an on-campus space to promote study and form connections. The common room is open Monday to Friday and located on the Canterbury site on the ground floor of the Chippendale building side entrance.

Please visit our website to learn of additional specific support available for mature students.
